

Healthcare Publications

Prior to 2016 draft copies of papers can be found at www.hcaf.biz, from the start of 2016 publications are on the web server but not the website. Click on the url and you will be able to locate a draft version. For Open Access papers copy the DOI into an internet search and you will be directed to the published paper.

All papers are written in an easy to understand non-academic style so that busy healthcare managers and policy makers can understand the issues. The fundamental insight into the issues comes from a 26-year career in healthcare, with hard-won understanding by long experience and extensive supporting literature research.

All *British Journal of Healthcare Management (BJHCM)* articles can be downloaded using an NHS Athens login on the *BJHCM* website: www.BJHCM.co.uk *BJHCM* drafts are with permission.
